

Study on how people perceive marketing im- ages

* Required

Introduction and Consent

This survey is part of a university coursework project exploring how people perceive marketing images commonly used on social media platforms such as Instagram. Participants will be shown a series of images and asked to share their impressions by rating aspects such as image quality, realism, and visual appeal.

The survey is anonymous and the responses collected will be used only for academic analysis as part of the assignment. The data will not be used for any other purpose and will be deleted once the coursework has been completed.

Completing the survey is voluntary and should take approximately 5 minutes. By proceeding to the next page, you indicate that you agree to take part in this study.

Image Evaluation

Please evaluate each image based only on your personal impressions. There are no right or wrong answers.
